EDUCATION

Post-Degree Diploma — Web & Mobile App Design and Development

Sep 2024 – Apr 2026

Langara College, Vancouver, BC | **GPA: 2.93**

B.Tech in Computer Science Engineering | CGPA: 8.21

2019 – 2022

Guru Teg Bahadur Institute of Technology, GGSIPU, Delhi

Diploma in Computer Engineering | 60%

2014 – 2019

Guru Nanak Dev Institute of Technology, BTE, Delhi

PROJECTS

Semina — AI Plant Care App (Capstone)

React Native · Expo · TypeScript · Node.js · Express · Supabase · OpenAI API · AR (Scene Viewer / AR Quick Look)

- Built a full-stack mobile plant care app with AI-powered plant scanning that analyses health status and logs results to Supabase.
- Implemented a logbook system with health badges, watering schedule colour-coding, search, and CRUD operations across multiple screens.
- Integrated AR plant previews using Google Scene Viewer (Android GLB) and AR Quick Look (iOS USDZ) via native deep-linking — no third-party AR libraries.
- Developed a push notification and reminder system for watering schedules, with a bell badge and Today's Tasks home screen widget.

BloomUp — Parenting Support Platform (Team Project)

React · Node.js · Express · MongoDB · Socket.IO · Tailwind CSS

- Developed the Articles feature with category filtering, bookmarking (SavedArticle model), pagination, and a search modal.
- Built a real-time notification and reminder system using Socket.IO, with a bell badge, green highlights for unread items, and fractional-day scheduling.
- Designed and implemented the responsive landing page, matching Figma designs with SVG wave curves and a mobile hamburger menu.

Vancouver Parking Finder (Individual Project)

React · Node.js · Express · SQLite · Google Maps API · Render

- Full-stack web app that locates nearby parking meters across Vancouver using geolocation and Haversine distance calculations.
- Imported and parsed a CSV dataset of 6,700+ parking meters into SQLite, with a REST API serving filtered results by proximity.

- Deployed to Render with Google Maps integration for interactive map display and real-time location-based search.

WORK EXPERIENCE

IT & Marketing Engineer

Nov 2022 – Oct 2024

Adroit Engineering Projects · Delhi, India

- Led end-to-end digital marketing and social media strategy, increasing customer engagement across platforms.
- Developed and maintained the company website using frontend and backend technologies, improving overall UI/UX.
- Designed product presentations highlighting key USPs to strengthen market positioning.
- Provided technical support and cross-functional collaboration between engineering and sales teams.

TECHNICAL SKILLS

Languages

JavaScript / TypeScript
C / C++ / Java
HTML / CSS

Frameworks & Libraries

React Native (Expo)
React · Angular JS
Node.js · Express.js

Databases & Cloud

Supabase · MongoDB
SQL · SQLite
REST APIs · Socket.IO

Tools & Design

Git / GitHub (team collab)
Figma · Adobe Suite
WordPress · Tailwind CSS

Dev & Project Tools

Android Studio · Xcode
VS Code · GitHub Codespaces
Jira · Slack · Trello

Soft Skills

Team Collaboration
Problem Solving
Agile / Scrum

CERTIFICATIONS

Programming in C & C++

Jan 2017 (4 months)

Shri Lal Bahadur Shastri Training Institute

MEAN Stack Development & Web Development with UI

Jan 2017 (6 months)

Brain Mentors Pvt. Ltd.

LANGUAGES

English · Hindi · Punjabi
